Disinfection and cleaning of hands and body

Product name

septDES FOAM

Product range

Washroom hygiene

Product description

Alcohol-free foam for the hand disinfection according to EN 1500 as well as for hand cleaning and hygienic hand washing according to EN 1499. This combination allows the user to perform hand cleaning and disinfection depending on the individual needs. septDES FOAM contains excellent care substances so that the hands do not dry out. The discreet scent is free of allergens and paraben. Dermatologically tested. Tested according to EN 1500 and EN 1499.

Packaging unit

6 x 600 ml

Art.-No. 4110708703

Field of application | use

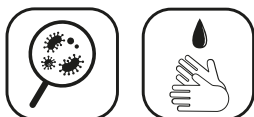

septDES FOAM is applied directly to the skin as a foam and without dripping by using the LUNA foamSOAP dispenser, XIBU sense/ touchFOAM or XIBU inoxFOAM dispenser. Ideally suited for hygiene-relevant areas where high risks of the transmission of pathogens are present. Very well suited for areas where an alcoholic hand disinfection is not possible or in case of intolerances. Particularly suitable for hygiene requirements in kitchens, mass catering (HACCP), public institutions, healing caves or explosive areas, detoxification centers, schools and sanitary facilities.

Dosage

For each use, one portion (=0.9 ml) of foamed soap is dispensed. In order to perform a hygienic hand wash, wet hands with water and rub in one portion of septDES FOAM in both hand for 30 seconds. Rinse and thoroughly dry hands after. For hand disinfection apply one portion of septDES FOAM to clean and dry hands and rub in for 60 seconds without diluting. Let hands dry afterwards, do not rinse of.

Safety information

Please follow the standard safety measures when handling chemicals. **Use disinfectant safely. Always read the product label before use.** Keep out of reach of children.
