Washroom hygiene

**Product description**

The handHYGIENE KIT from Hagleitner is perfectly suitable for mobile use – ensures the ideal cleaning and protection of hands for on the go. Depending on the type of contamination and the application area, the following products are at your disposal: handPROTECT PURE 50 ml as a skin protect, creamSOAP PURE 50 ml and abrasivUNIVERSAL 150 ml for cleaning, handCREAM PURE 50 ml for skin care and septDES GEL 50 ml for hand disinfection.

**Packaging unit**

1 piece

Art.-No. 4120101800

**Field of application | use**

Particularly suitable for mobile use in handicraft and industrial businesses such as painters, general workshops, locksmith's shops, metal-working industries and construction sites.

**Dosage**

handPROTECT PURE should be used before starting work. Put the hand-protect lotion on cleaned, dry hands. Rub lotion carefully on the hands. Re-apply after long working intervals or after intense contact with water. Apply the creamSOAP PURE soap to dirty moist hands. Scrub hands with water until the soiling is removed. Rinse with lukewarm water and wash off well. For coarser dirt, apply abrasiveUNIVERSAL soap to dirty, dry hands. Scrub hands without using water until the soiling is removed. Rinse with lukewarm water and wash off well. Put the nourishing hand disinfection gel septDES GEL to cleaned, dry hands. Spread without diluting with water over both hands (include space between fingers, edges of fingers, nail groove, finger tips, dump, wrist). Keep hands moist during the entire exposure time. See label for contact times for virucidal efficacy. Apply handCREAM PURE soothing skincare lotion to the back of clean, dry hands after work. Rub lotion carefully on hand surface. Re-apply after long working intervals or after intense contact with water.

**Safety information**

Always read the label and product information before use. Please follow the skin protection plan.
