

Washroom hygiene

HsM gatewayLAN

Gateway for operation via LAN/WiFi

Product name

HsM gatewayLAN

Product range

Washroom hygiene

Product description

Device for collection and transmission of data of up to 32 dispensers in the area. Communicates with the dispensers via Bluetooth and transmits their data via LAN or WiFi network into the cloud. Live data are thus made permanently available.

Packaging unit

1 piece

Art. No. 4131400400

Field of application | use

The HsM gatewayLAN can be used anywhere where dispenser data is to be recorded continuously.

Dimensions

H x W x D: 9.5 x 9.5 x 3.8 cm

Installation

Installation of one gateway per conventional washroom (approx. 10 dispensers) is recommended to guarantee the ideal connection. In order to connect the device to the necessary Internet link, the devices have to be integrated into the customer's IT network via LAN or WiFi using the XIBU app. The necessary power supply unit and a LAN cable are included. (Cable length each 80 cm)

Product recommendation

Recommended for use in combination with all hybrid dispensers. It can also be used with the integral 2GO HsM and integral 4PURE/MIX dosing systems.
