

Janitorial hygiene

integral 2GO HsM

Dosing device

Product name

integral 2GO HsM

Product range

Janitorial hygiene

Product description

Digital electronic concentrates dosing device equipped with RFID technology. A solenoid-controlled pump ensures safe and exact dosing of the 7 different integral 2GO cleaning concentrates. These are mixed with water and dispensed as a ready-to-use cleaning solution. The app shows the unit status and error messages, as well as allowing you to change settings and analyse unit data.

Packaging unit

1 piece

Art.-No. 4410101250

Field of application | use

Dispensing of small volumes from 0.4 l to 1.5 l possible (e.g. into 0.5 l refillBOTTLE, 1 l refillBOTTLE). Dispensing of large volumes from 0.5 l to 50 l possible (buckets, cleaning machines, etc.). App for mode settings, unit status, analyses, etc.

Easy to understand, language-neutral display, level indicator, green flashing signal in OK mode, red in case of error messages (e.g. no water). Menu can be accessed with app authorisation or 4-digit code. There, the dosage of the concentrate (light/medium/strong) and the pump change can be set, and the device can be reset.

Dimensions

H x W x D: 38.3 x 19.8 x 19.2 cm
