Hazardous substance identification

hygienicDES FORTE

Hazards for employees and environment

H226 Flammable liquid and vapour.

In use, may form flammable/explosive vapour-air mixture.

Precaution measures and instructions

General protective and hygiene measures

Do not inhale vapours. Wash hands before breaks and after work. Do not eat, drink or smoke during work time. Avoid contact with skin. Observe the usual precautions for handling chemicals.

Keep container tightly closed. Use only in well-ventilated areas.

Technical and organisational protection measures to prevent exposure

Advice on protection against fire and explosion: Keep away from sources of ignition - No smoking. Vapours can form an explosive mixture with air.

Further information on storage conditions: Keep at temperature not exceeding 30 °C.

Personal protective equipment

Eye protection: Tightly fitting safety glasses

Hand protection: Protective gloves

Body protection: Clothing as usual in the chemical industry.

Behavior in case of danger

Suitable extinguishing media: Alcohol-resistant foam, Dry chemical extinguisher, Carbon dioxide, Water spray jet

Non suitable extinguishing media: Full water jet

Use breathing apparatus if exposed to vapours/dust/aerosol. Ensure adequate ventilation. Use personal protective clothing. Keep away sources of ignition.

Do not discharge into the drains/surface waters/groundwater.

Pick up with absorbent material (eg sand, kieselgur, acid binder, universal binder, sawdust). Dispose of absorbed material in accordance with the regulations.

Use self-contained breathing apparatus. Wear protective clothing.

First aid

Remove contaminated, soaked clothing immediately and dispose of safely.

In case of accident or if you feel unwell, seek medical advice immediately.

After inhalation: Ensure supply of fresh air. In the event of symptoms take medical treatment.

After eye contact: In case of contact with the eyes, rinse immediately for at least 15 minutes with plenty of water. In case of irritation consult an oculist.

After skin contact: Wash off immediately with soap and water.

After ingestion: Rinse out mouth and give plenty of water to drink. Do not induce vomiting. If swallowed, seek medical advice immediately and show this container or label.

Proper waste disposal

Completely emptied packagings can be given for recycling.
