

Janitorial hygiene

PUMP integral 2GO/4PM

Dosing pump

Product name

PUMP integral 2GO/4PM

Product range

Janitorial hygiene

Product description

Solenoid-controlled pump, to be renewed as part of the service interval for integral 2GO HsM and integral 4PURE/MIX dosing units.

Pump replacement interval

When the integral 2GO HsM dispenser has dispensed 20 multiFILL cartridges, or the integral 4PURE/MIX has dispensed 40 multiFILL cartridges, or has been connected to the mains for one year, the service message "S100 pump change" appears on the dispenser display.

- If the dosing quantity of 20/40 multiFILL cartridges is reached before the end of one year, two/four more multiFILL cartridges can be dispensed.
- If the mains operating time of one year is reached before 20/40 multiFILL cartridges are used up, the dispenser will still be functional for one month.

The dispenser stops dispensing. After the pump has been replaced as per the operating manual, the dispenser is ready for use again.
